EFFICIENT TRAPEZOIDAL PLATE MOUNTING

IBC TopFix 100

TRAPEZOIDAL PLATE MOUNTING

With more than 50,000 installed systems, the IBC TopFix 100 is the genuine classic among IBC SOLAR’s mounting systems. The IBC TopFix 100 trapezoidal plate mounting system is suitable for nearly all module types. Weatherproof components made from aluminum and stainless steel ensure a long service life. And thanks to the riveting technology, installation is extremely fast.

HIGHLIGHTS

- Ideal for large-area trapezoidal plate roofs
- Low system costs thanks to modular construction
- Wide range of applications due to variety of mounting components
- Easy to maintain thanks to quick replacement of individual components
- Durable and weatherproof components
-TÜV certified and statically tested
- 10-year product warranty*
Fast and easy mounting thanks to time-saving riveting technology (no screws)

- Provision for thermal expansion of the carrier rails
- Precise and quick positioning through UV-resistant high-performance adhesive tape
